DEPARTMENT OF COMMERCE

Patent and Trademark Office

Soliciting applications for membership on Public Advisory Committee for Trademark Affairs

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice.

SUMMARY: The Patent and Trademark Office is seeking five members for the Public Advisory Committee for Trademark Affairs. Member terms would begin on January 1, 1998. A member must be an organization that is representative of the intellectual property community, e.g., a bar group, a business organization or an academic institution. Organizations interested in membership should send a letter expressing that interest and containing the information set out in the Supplementary information to the Patent and Trademark Office.

DATES: Submit applications on or before January 8, 1998.

ADDRESSES: Mail letters of request to participate in the Public Advisory Committee for Trademark Affairs to The Honorable Bruce A. Lehman, Assistant Secretary of Commerce and Commissioner of Patents and Trademarks, United States Patent and Trademark Office, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT: David E. Bucher, Deputy Assistant Commissioner for Trademark Policy and Projects, at (703) 308-9100, ext. 20.

SUPPLEMENTARY INFORMATION: This Committee is chartered under the Federal Advisory Committee Act (Pub. L. 92-463). Its purpose has been, and continues to be, that of advising the Patent and Trademark Office (Office) on ways to increase the Office's efficiency and

effectiveness and to provide a continuing flow of insights and perceptions from the private sector to the Office in the area of international and domestic trademark law.

The Office amended the charter of the Committee in 1996 to make the Committee more diverse and more representative of trademark owners, trademark practitioners and the Intellectual Property community as a whole. Accordingly, the Commissioner will select five representative organizations from among intellectual property organizations, bar groups, business-related organizations and academia. The five organizations whose members' terms will expire on December 31, 1997, are not precluded from responding to this notice. However, no member may serve more than two consecutive terms.

Each organization's letter to the Commissioner should explain the nature, size and characteristics of the organization and why this particular group is deserving of membership on this committee.

Selection of the organizations will be based on the following criteria: (1) members' familiarity with the operations of the Patent and Trademark Office relating to trademarks and trademark rules, trademark practices, and the administration of the trademark operations; (2) members' experience practicing before the Patent and Trademark Office in trademark matters; and (3) an indication of the organization's interest in trademark practices by programs such as established committees designed to improve trademark operations, or legal education activities regarding trademark practices.

Dated: December 12, 1997

Bruce A. Lehman
Assistant Secretary of Commerce and
Commissioner of Patents and Trademarks

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:

(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).

(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).

(3) All design patents are granted for a term of 14 years from the date of the grant.

However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
